#NuclearManufacturing24

Connecting insight and innovation for delivery

20–21 NOVEMBER 2024

The annual Nuclear Manufacturing Summit returns for its fourth year, to connect the UK supply chain with programme leaders and buyers from across the sector.

The Nuclear Manufacturing Summit 2024 will share the latest information and insight from all the major programmes in new nuclear power, decommissioning, defence, space and fusion. You can discover the current market opportunities, and get involved early with the projects that will shape the industry for decades to come.

The UK's major political parties are agreed that nuclear power will remain at the heart of decarbonisation and energy security. With the need for action more urgent than ever, this year's Summit will focus on innovative approaches to unblocking progress and delivery.

We are building on the success of 2023's sold-out event with another incredible line-up of influential speakers offering valuable insight and inspiration, plus a few surprises.

We've listened to your feedback from previous years, and are offering exciting new opportunities to network with decision-makers at top-tier companies, as well as an enhanced exhibition area to showcase your capabilities.

The Summit is again held at the Magna Science Adventure Centre in Rotherham, and will close with a gala dinner and the second UK Nuclear Manufacturing Awards to celebrate the best of the supply chain.

For the latest information, registration and awards submissions visit nuclearmanufacturingsummit.co.uk

To sponsor or exhibit, complete the booking form at the back of this document and return to the event organisers: info@nuclearmanufacturingsummit.co.uk.
